Undergraduate Student of Computer Science at BINUS University
Jakarta Barat, Jakarta Raya, Indonesia

Ringkasan

As a third-year student, I have a strong passion for exploring technology, particularly in the areas of databases, data processing, and data analytics. Throughout my studies, I've been deepening my understanding of how data can be transformed into valuable and actionable insights. I enjoy tackling new challenges and consistently strive to apply the knowledge I've gained in practical projects, with the goal of continually learning and growing in this field.

Media Partner Staff at BNCC Techno Talk I

November 2022 - Desember 2022 (2 bulan)

As part of the media partner team for BNCC Techno Talk 1, I successfully secured partnerships with eight out of twenty targeted media partners. The event was held in a hybrid format at the Exhibition Hall of Binus Anggrek Campus on December 23, 2022. This achievement played a key role in enhancing the event's visibility and reaching a broader audience, contributing to the overall success of the event.
