Computer Science graduate from BINUS University with a strong foundation in back-end web development, database design, SQL querying, and data processing. Experienced through academic projects and internship, with a growing interest in data engineering and data-driven systems. Eager to contribute by building scalable solutions while continuously learning and expanding technical expertise.

WORK EXPERIENCE

Back End Developer Intern, Parker Russell Indonesia February 2025 – January 2026

- Developed a Python application with Streamlit framework to support the Risk Management Division in analyzing and calculating the Risk Maturity Index (RMI) of client companies.
- Designed and executed SQL queries in PostgreSQL to manage and retrieve data for the RMI application, ensuring accurate calculations and reports.
- Designed ERDs using Visual Paradigm for RMI system, external systems, and various internal or new office systems under research to support project development and system planning.
- Performed data cleaning and preprocessing before storing data in the database to ensure data integrity and consistency.
- Cleaned and preprocessed client transaction data for Journal Entry Testing (JET) to identify anomalies and potential red flags.

ORGANIZATION EXPERIENCE

Activist, Bina Nusantara Computer Club November 2022 - October 2023

- **Media Partner Staff of BNCC Techno Talk I** November 2022 - December 2022
 - Become a contact person for media partner collaboration.
 - Communicate and negotiate compensation with media partners.
 - Create a cooperation agreement letter with media partners.
 - Track and upload media partners compensation.
 - Successfully secured partnerships with eight out of twenty targeted media partners.

Member LnT BNCC Back-End Development September 2022 - October 2023

- Create CRUD projects for mid and final projects using Laravel.

EDUCATION

BINUS UNIVERSITY September 2022 - April 2026

- Bachelor of Computer Science
- GPA: 3.86
- Stream: Database Technology

SKILLS

- **Tech Stack:**
Programming Languages: Java, Golang, Python, C, PHP, HTML, CSS, PySpark, SparkSQL, JavaScript
Framework: Laravel, Streamlit, Bootstrap
Databases: MySQL, PostgreSQL
Tools: Visual Paradigm, Git (GitHub), Postman, Docker, Apache Airflow, Figma
- **Soft Skills:** Critical thinking, Problem Solving, Decision Making, Communication, Able to work in team, Adaptability, Negotiation
